

Wang's 2200 Series Small Business Computers deliver custom solutions to specific business problems.

Too often, buying a small business computer means settling for a general-purpose answer.

But not with Wang. Because in addition to high performance, low cost and ease of use, our 2200 Series interactive computers offer something

very rare: customizing.

From our entry-level PSC II to our multi-job, multi-user 2200MVP, our 2200 computers are designed to be specially tailored—in both hardware and software—to do exactly what you need done. Payroll. Accounts receivable. Inventory. And plenty more.

Also, they let you expand into new applications easily—without giv-

ing up the investment you've already made. And our direct hardware and software support means you'll get all the help you need in planning and developing your system.

So instead of buying a computer that's just right for everybody, call Wang. And get a computer that's just right for you.
